NEW STREET DIRECTORY.

Giving the name of each street, and showing what other streets run from it or across it, with the number at which they intersect. From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know what part of Grand street 100 comes, look at Grand street and you will find that Church intersects at 98.

**TYPE-METAL RELIEF PLATES.  
A SUPERIOR SUBSTITUTE FOR WOOD-CUTS  
AT MUCH LOWER PRICES.**

These plates are engraved almost entirely by photo-chemical means, thus avoiding the old, slow and tedious method of engraving on wooden blocks, where the workman is compelled to engrave each line separately by cutting away the wood around it, often spending many days upon a plate a few inches square.

In appearance our relief plates are the same as regular stereotypes, being mounted type high on blocks ready to be set up and printed from, with type, on an ordinary press.

They can be used directly and will wear as long as any type-metal plates, but if a great number of impressions are wanted, duplicate

**ELECTROTYPES AND STEREOTYPES**

can be made from them the same as from wood-cuts. They have a printing surface as smooth as glass, and the lines are engraved deeper than they are in hand-cut plates. Notwithstanding the low prices at which they can be furnished, they are very much superior to wood-cuts, and in some classes of work are rapidly taking the place of lithography.

**REFERENCES.**

Among those who manifest their satisfaction with our work, by continued orders, we may mention:—D. Appleton & Co., Scribner & Co., Frank Leslie, A. D. F. Randolph & Co., G. W. Carleton & Co., The American Tract Society, Robert Carter & Bros., Munn & Co., Pub. "Iron Age," Pub. "Illustrated Weekly," Pub. "McGee's Illustrated Weekly," and also a large part of the principal publishers and manufacturers throughout the country.

**COPY.**

Almost all kinds of Prints or Engravings from Wood, Stone, Copper and Steel may be reproduced directly. The requisites are, clean, distinct black lines or stipple work, on white or only slightly tinted paper. All Photographs and Pencil Sketches must first be drawn in ink. We keep a corps of artists constantly employed, trained to do this work in the best manner. We can make drawings from photographs or tin-types taken in the usual way. They may be of any size, but should, of course, show the object distinctly.

Drawings for our use, unless intended to be redrawn, should be on a smooth white surface, in perfectly black lines, and usually twice the dimensions each way of the desired plate.

Copy for fac-similes of handwriting should be in perfectly black ink, on smooth white paper, written with a full pen, and without use of blotting paper.

**TIME.**

While we can engrave a plate in a few hours that would occupy a wood-engraver a month, and often do so, yet with the large amount of work constantly on hand and promised, we cannot usually engage to fill an order for a single plate in less than from three to six days; larger orders will, of course, require longer time.

**CHANGE OF SIZE.**

In reproducing wood-cut prints, the size can often be considerably reduced; but if the reduction is great, the lines become so fine and close together that they will not print well. Coarse wood-cuts, such as are generally used in Newspapers, may often be reduced to half their linear dimensions, but fine wood-cuts will admit of but little reduction.

Most steel plate prints and lithographs will not admit of any reduction, and even when reproduced, the same size in relief, require considerable care in printing.

All kinds of prints generally look bad when much enlarged, as the lines become very coarse and ragged on the edges; though we have sometimes made very effective cuts for posters and hand-bills in this way.

In all cases of enlargement and reduction the relative proportions remain the same.

It must not be forgotten, however, that by redrawing, prints of any kind can be enlarged or reduced to any desired size.

**PROOFS.**

We will, whenever desired, furnish tin-type proofs of drawings made by us, for examination and approval, or correction, before engraving.

A printed proof is sent with each plate when delivered, which may always be equaled or surpassed in actual work with proper usage.

**PRICES.**

It is impossible to give a scale of prices by the square inch for miscellaneous job-work, as sometimes a small cut two or three inches square may require as much work as another one a foot square. We can, however, give an average inch rate to newspaper publishers whose work runs uniformly about the same from week to week, especially when they furnish us with copy already prepared—such as prints and pen-and-ink drawings.

In sending for estimates, be careful to send us the copy we are to work from, with full specifications as to size and quality, and remember that it is the same with engraving that it is with everything else; the price will vary greatly with the quality of work ordered.

Never, directly or indirectly, ask us to give you better prices than we give our other customers, as we try to treat all alike.

The great advantage of our method of engraving enables us to give better work at lower prices than can be given by any other method for the greater part of such work as would be given to wood-engravers, though in very small pieces of the poorer grades of work the advantage is not so great, and in very coarse work such as is usually engraved on mahogany and pine, our process gives us no advantage over the wood-engraver.

To estimate properly upon any piece of work, we must understand just what is wanted. We guarantee all our work to be executed in the style agreed upon.

**TERMS.**

OUR TERMS are CASH ON DELIVERY, except by special agreement.

Orders from parties not known to us must be accompanied by an advance of at least half the price, or satisfactory City reference.

Goods sent by Express will be C. O. D. Where plates are small they may be sent by Mail upon receipt of price and postage. Remittances must be by draft on New-York or P. O. money order, payable to the order of Photo-Engraving Co., or by registered letter—not by Checks on Local Banks.

We pledge ourselves to meet the reasonable demands of those who employ us. If, in any case, we cannot do so, we will refund the money advanced.

## REGISTRATION OF LETTERS.

Valuable letters should always be registered. The fees (additional to postage) are: United States, 10 cents: Canada, 10 cents: foreign countries, 10.

### RATES OF DOMESTIC POSTAGE ON LETTERS.

Standard weight of single rate, half-ounce avoirdupois.

Postage on single rate letter, throughout the United States, 3 cents.

For each additional half-ounce or fraction, 3 cents.

Postage on "drop" letters for local delivery, per half-ounce, 1 cent.

Postage on all domestic letters must be prepaid by stamps.

No writing, except the address, on samples is allowed, but different styles and qualities may be marked with figures to correspond with descriptive letter mailed separately.

### THIRD CLASS MATTER.

Under the Act of July 12, 1876, the following articles are mailable at the rate of *one cent for every two ounces* or fractional part thereof: Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), prospectuses, maps, proof-sheets, regular publications designed primarily for advertising purposes or free circulation, or for circulation at nominal rates, and corrected proof-sheets; and the following *at one cent for each ounce* or fraction thereof: Printed cards and blanks, lithographs, prints, chromo-lithographs, engravings, photographs and stereoscopic views, book manuscripts, unsealed circulars, seeds, cuttings, roots and scions, bulbs, flexible patterns, samples of ores, metals, minerals and merchandise, sample cards, photographic paper, letter envelopes, postal envelopes and wrappers, unprinted cards, plain and ornamental paper, cardboard, and other flexible material, and all other matter of the third class not herein enumerated. The sender of any article of the third class is permitted to write his or her name or address therein, or on the outside thereof, with the word "from" above or preceding the same; or to write briefly, or print, on any package, the number and names of the articles inclosed.

### POSTAL CARDS.

Anything whatever attached to a postal card except a printed address tag, renders it unmailable as a postal card.

When a postal card has once passed through the mails, it has served the purpose for which it is created, and lost its character as a postal card. It cannot be remailed except at letter rates of postage.

## 1877 Chilson's Entirely New and Greatly Improved Portable Range. 1877

I desire to call special attention of every housekeeper in want, or who ever expect to want a Strictly First-Class Range, to the great improvements over my old pattern Range, in broiling heating water, anti-clinker grate, nickel plated trimmings, towel dryer, four extra shelves, and extra heavy, fine, smooth castings, of rich and beautiful design, *no place for rust, dirt or grease to lodge to keep women scrubbing*, but always a clean, beautiful surface. This beautiful Range has no equal in this country. This will be proved on examination and trial.

I also desire to call the attention of gentlemen, in want of the most substantial and beautiful Range for brick setting ever put up in any kitchen, to my **Arlington Brick Range** which is acknowledged by all to be the most splendid piece of work for a Range ever got up. Also, the *Chilson Brick Set Range* that has acquired such a high reputation in the use of over ten thousand Ranges in giving the most perfect satisfaction. This Range comes at less price than the Arlington, and is within the reach of all. A full line of Furnaces, Ranges, Stoves, etc., at the lowest market prices. Special attention given to putting up Furnaces and Ranges in any part of the country. Nothing but what is strictly first-class work is manufactured by me.
