

“IGNORING FORENSIC EVIDENCE”

Dr. Jerry Labriola

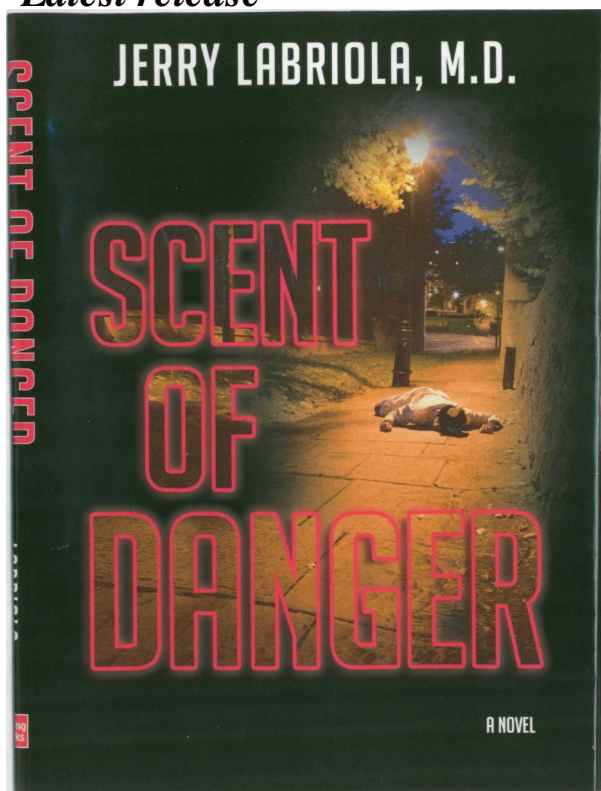

discusses 2 two high-profile cases taken from books he coauthored with Dr. Henry Lee.

Both victims died from a gunshot wound into the mouth.

Although one case was ruled a murder and the other a suicide, Dr. Labriola offers forensic evidence refuting the decisions of both juries.

Latest release

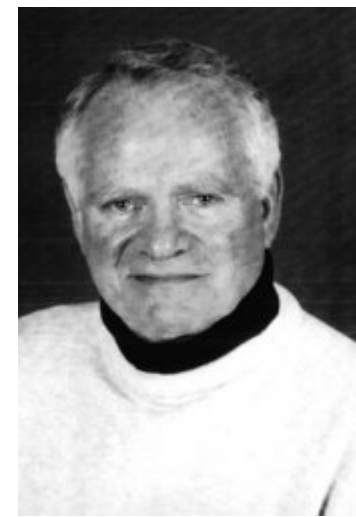

Critically acclaimed mystery writer Dr. Jerry Labriola, author of the Dr. David Brooks mystery series and co-author with renowned forensic scientist Dr. Henry Lee of *Famous Crimes Revisited*, *Dr Henry Lee's Forensic Files*, *The Budapest Connection* and *Shocking Cases*, has penned another thriller in which world-class action, violence and sinister cover-ups abound.

In *Scent of Danger*, American international treasure hunter Paul D'Arneau investigates the theft of a secret perfume formula - only to be swept up in a maelstrom of cryptic messages, personal assaults – and even murder!!! The formula dates back to the days of Napoleon, the discovery of the Rosetta Stone, the controversy over the Elgin Marbles, and, possibly – Cleopatra. Hastily planned journeys from Paris to Grasse, France – the perfume capital of the world – and to Cairo, Alexandria, London and the islands of Elba and St. Helena heighten the suspense. Also woven throughout the story is a romance between Paul and Sylvie Ranet, of the French Academy of Sciences.

The talk will be followed by a question and answer period as well as the sale and signing of *Scent of Danger*. Those purchasing it will receive a complimentary copy of one of Labriola's earlier books.

The program is free and open to the public.
