PREFACE.

In presenting this work to the Public as the third edition of the Waterbury City Directory, its object and value in its preparation have been constantly held in view. Every effort was made during the canvass to make it a complete and reliable Book.

It contains the name and location of all Independent persons, a great excess over the old Directory, besides much other matter, making it a work of daily use to the community and strangers.

Following the Citizen Department will be found a Business Directory, recognizing each business man under the particular trade or profession in which he is engaged.
