Front Plaza Project
Construction of the ramp for the back entrance began on May 24 with the installation of concrete underground support posts. Construction of the wood ramp began on Friday, June 2. When it is completed, the front lawn and entrance will be fenced off and demolition (removal of sidewalks, lights, ramp, railings, etc.) will begin.

After the ramp construction began, we had a number of confused patrons attempt to come into the library through the staff/delivery entrance. We have installed a chain and directional signage across the ramp to help with this problem, as patrons typically did not stop to read the signage on the door.

We will be doing some rearranging of AIS cubicles in the basement to make room for the new fountain’s mechanical system. Supplies currently stored where the mechanicals will be located need to be moved to where two AIS staff cubicles are currently located. The end result will be a more professional, clean, and well-light office for all of the AIS staff.

State Budget Cuts
Due to state budget cuts to the Connecticut State Library, there will be a significant reduction in services for patrons borrowing books from other libraries. The state’s borrowIT program allows patrons to borrow books from any participating library and return books to any participating library. Patrons can also request books from another library be delivered to them at their home library. All deliveries between participating libraries have been done by the state's deliverIT program. We send and receive numerous bins full of books every day of the week—averaging between five and ten bins daily. The delivery system will be shut down between June 19 and July 17. When it resumes, there will be a limit of 3 bins picked up per day per library.

Friends Fundraising & Outreach Committee
The Committee is continuing to work on a number of outreach and fundraising ideas. They are also working on plans to bring back the annual Friends of the Library book sale.

Benevento Fund
The inaugural program was a hit, and the Friends have raised more than $5,000 for the fund, bringing the total to $17,500 before expenses. We will need to form a committee to help plan future programs, to be held quarterly.
**Patron Services**

I am working on having our downloadable eBooks and audiobooks integrated into our Bibliomation catalog. Currently, patrons have to navigate between three websites (Bibliomation, Overdrive, and OneClickDigital) and do three separate searches in order to find books. Once the integration is done, patrons will be able to search all three collections simultaneously in our regular Bibliomation catalog.

**Maintenance**

We now have a carpet extractor, and our Maintainers have been using it to deep clean all wall-to-wall carpeting at the main library and branch library. The carpet shampoo conforms to safety standards for people with severe allergies and/or asthma.

The library will be launching a new recycling program this summer, with dedicated recycling bins throughout the building for the public and the staff.
