Director’s Report to the Board of Agents
Silas Bronson Library
July 20, 2020
Raechel Guest, Director

Operational Changes
Since the last meeting of the Board in February, the library has completely changed its operations twice – first when we closed the buildings, and second when we reopened with new safety protocols. It's been a challenging time for everyone, and we are still figuring things out as we go, but our employees have done a great job of learning new skills and developing new procedures on the fly.

The library’s last day of being open to the public was Saturday, March 14. All employees reported to work at the library for the week of March 16-20. Starting on March 21, most employees either worked from home or were placed into “on call” status if it was not possible for them to work from home; some employees worked in the building on alternating schedules for essential work that could not be done from home; and the Maintainers worked in the building daily.

While the building was closed, we transitioned to offering online programs and digital library cards, and we increased the size of our ebook and downloadable audiobook collection. Employees also used the time to focus on professional development, holding weekly Zoom meetings to practice Spanish, taking social media classes offered to our staff by Brass City Gamers, and using online tutorials for a wide variety of work-related skills.

One of our Librarians, Michael Tierney, volunteered as a driver for the City’s meal delivery program to seniors and others staying at home due to the pandemic. He is continuing to participate in the delivery program every Tuesday and Thursday morning. We are looking into ways to add library delivery and pickup services to this service, which would be done in collaboration with the Senior Center.
Patron cards that were due to expire were all automatically renewed for one year. We added a digital card signup, letting patrons get a new library account for use with our ebooks. The digital cards can be replaced with physical cards now that we are open.

While the building was closed, our Maintainers took care of a backlog of projects that are difficult to do with people in the building. Two of our Maintainers were temporarily reassigned to the Public Works Department while our buildings were closed.

All employees returned to the building on Monday, June 15. The two Maintainers at Public Works returned on June 22.

The main library reopened for “takeout” service on Monday, June 22 and the branch library reopened on June 25. Patrons request items to borrow online or over the phone, then pick up their orders at a schedule appointment time. Browsing the shelves is not permitted, per state guidelines.

We are finalizing our preparations to allow patrons to use the public computers in the East Wing.

All programs will continue to be held online for the foreseeable future. We have also increased our budget for ebooks and downloadable audiobooks.

**Safety Protocols**

Although Connecticut is currently leading the nation in controlling the pandemic, another outbreak is possible. Therefore, we are continuing to maintain strict protocols to ensure the safety of our employees and patrons.

Anyone entering the building is required to wear a mask and practice social distancing. Hand sanitizer is readily available at all entrances. Employee temperatures are checked daily, and employees have been instructed to stay home if they have any COVID symptoms.

Some employee desks have been relocated to new makeshift areas to comply with state guidelines for offices. The number of people allowed in the elevator, break room, and multi-stall restrooms has been restricted to ensure social distancing.
All employees have been issued a supply of disposable masks; we are in the process of acquiring reusable masks for all employees. Plexiglas barriers have been installed at the public service desks. Face shields are available for employees to use if they have to interact with the public elsewhere in the building. Gloves are also available for employee use.

All shared keyboards have been placed inside a plastic sheet, making it easier to disinfect them between users. Disinfecting wipes are kept readily available for use on all shared surfaces (keyboards, phones, etc.).

TheMaintainers are disinfecting railing, handles, and other high-contact surfaces every hour.

The Auditorium is being used as the quarantine room for returned items. Following IMLS guidelines, all returned items are quarantined for 72 hours.

We will not be holding any in-person programs or allowing any room reservations by the public. Our goal is to minimize the number of people entering the building and to keep essential visits to short durations of time.

**Late Fees**

In accordance with the State Guidelines for public libraries, we are waiving all late fees to avoid cash handling and to encourage patrons who aren’t feeling well to keep their library materials at home until they are better.

**Chromebooks & Hotspots**

Thanks to funding from the federal CARES Act and the Institute of Museum & Library Services, the Connecticut State Library has donated to us a set of 10 Chromebooks and Wi-Fi hotspots for supporting families in their homes, supporting senior citizens, job seekers, those who need to apply for basic needs, and community college students lacking resources.
Although the devices were donated, there are still licensing and management fees which we will have to cover, for a total of $1,585. This is approximately the same amount of money we are saving by not renewing our movie licenses this year (we do not need the licenses, as we will not be showing any movies).

Once we have finished configuring the Chromebooks, our patrons will be able to borrow them. Every library handles the loan of technology in different ways. A one-week loan period is common. Some libraries charge large late fees, but this defeats the purpose of the program – the idea is to make the internet accessible to people who can’t afford it. However, we can configure the Chromebooks and the hotspots with a remote disable option, allowing us to shut them down if they aren’t returned, which should motivate patrons to return the equipment. Other libraries have found this to be effective.

We have also received a BRASS grant from the Connecticut Community Foundation to purchase Chromebooks and hotspots for seniors to borrow from the library. We normally use BRASS grants to purchase or upgrade computers at senior centers. Due to the ongoing health concerns, we decided to use the funds this year to increase seniors’ ability to stay safely at home.

**Warshasky Bequest**

Probate for the Stanford Warshasky estate is finishing up. The City’s Finance Department is working with the estate’s attorney to facilitate the transfer of cash and securities without liquidating the securities.

**Bunker Hill**

The ornamental crabapple trees at the branch library have reached the end of their lifespan and are infected with apple scab. The Parks Department will be removing the trees in the coming weeks. After the trees are removed, we can develop a landscaping plan for the library.

**150th Anniversary**

Our plans to celebrate the library’s anniversary were put on hold due to the pandemic, but our website has been updated with some of our history at bronsonlibrary.org/libraryhistory.
Bronson Fund Budget FY20 & FY21

During the last fiscal year, we budgeted a total of $91,000 for special projects from the Bronson Fund. None of the money was spent, primarily due to the pandemic.

We allocated $1,200 to cover any cost overage for a grant-funded purchase of new chairs for patrons, but the bids came in under the grant amount, so we didn’t need the $1,200.

Completion of the Teen Zone, budgeted at $25,000 for a glass dividing wall, has been put on hold. Since use of the building is by appointment only for the time being, this project is less of a priority than it was before. It should still be done, perhaps next spring.

Similarly, installation of a new a/v system for the auditorium ($5,000) is not a current priority, as we are not holding any in-person programs.

Relocation of the Data Cabinet ($4,800) has not yet happened, but is still in the works.

Costs ($21,000) related to improving our storage of irreplaceable archival material and digitizing that material for online use is just as high a priority as ever, if not more due to restrictions on in-person research. I hope to begin moving forward on this project in the next month or so.

The balance of the FY20 budget was allocated for contingency funds and for any costs related to the completion of the Front Plaza project. There may be a need for additional funds to be allocated for exterior work in conjunction with the current Library Park project, such as improvements to the rear patio. Additionally, we need to make some repairs to the building exterior where metal panels were removed.

For the new fiscal year, I would like to roll over the special projects budget as described above.

We are still working on the final operations budget for the new fiscal year. I’ll have it available at the next meeting. My current estimate is that we will need the following amounts from the Bronson Fund:

- $56,125 for physical media (books, etc.)
- $4,000 for patron supplies
- $3,300 for institutional memberships and staff professional development
Circulation Division

While our buildings were closed, we issued more than 200 new library cards online, giving people access to our ebooks, downloadable audiobooks, and databases. We worked with Bibliomation to extend all due dates to encourage patrons to keep their library materials at home until our buildings reopened.
